Divyapriyadharshini S

AI Tutor | Data Analyst | ML Data Associate

Bengaluru, Karnataka, India · 9578033875 · divyapriyadharshinisathish@gmail.com
linkedin.com/in/divyapriyadharshini-s · github.com/DIVYAPRIYADHARSHINI-GIT

AI and Data Analytics professional with hands-on experience in Python, SQL, data analytics, machine learning, data processing, and AI model training and evaluation. Skilled in Pandas, NumPy, Matplotlib, Power BI and MySQL for data manipulation, analysis, visualization and reporting. Experienced in building Python workflows for data validation, automation and AI training. Strong analytical and problem-solving skills focused on reliable, data-driven, AI-enabled solutions.

KEY RESULTS

- 99.80% annotation accuracy on AI/ML training data at Amazon production scale.
- 10+ interactive Power BI dashboards built and published with DAX measures and KPIs.
- 15% machine learning accuracy improvement through parameter tuning.
- 3 published research papers in peer-reviewed journals.

EXPERIENCE

AI Tutor
07/2026 - Present

SoftAge · Bangalore, India

- Use Python for AI training, evaluation and data processing workflows.
- Write scripts for data processing, automation, validation and analysis.
- Automate data extraction and validation to keep training sets consistent.
- Create and review AI training data, prompts and verification datasets.
- Run data quality checks and accuracy validation before data ships.
- Use Fusion 360 for basic model editing and verification.

ML Associate
09/2025 - 06/2026

Amazon · Bangalore, India

- Performed video annotation and data labeling for AI/ML model training at scale with 99.80% accuracy.
- Reviewed and validated datasets to maintain labeling standards.
- Carried out quality checks and identified errors before delivery.
- Worked with cross-functional teams in a high-volume production environment.

Data Analysis with Python Intern / Data Analyst
03/2025 - 09/2025

QSpiders · Bangalore, India

- Delivered analytics with Python, SQL and Power BI.
- Wrote 100+ SQL queries using joins, subqueries and group by for reporting.
- Built and published 10+ interactive Power BI dashboards with DAX measures and KPIs.

Machine Learning and Data Analytics Intern
02/2025 - 05/2025

NoviTech R&D · Coimbatore, India

- Handled data preprocessing and feature engineering for model-ready datasets.
- Built ML models including Logistic Regression, Decision Trees and KNN.
- Worked on NLP and regression tasks; improved accuracy by 15% through parameter tuning.

Machine Learning and Data Analytics Intern
03/2024 - 05/2024

Oasis Infobyte · Online / New Delhi, India

- Ran exploratory data analysis with Pandas and NumPy.
- Produced dashboards and visualizations for data storytelling.

Web Developer
06/2023

NoviTech · Coimbatore, India

- Built responsive web pages with HTML, CSS, Bootstrap and JavaScript.

PROJECTS

Dr.Advice: AI-Powered Skin Disease Detection

Python, TensorFlow, OpenCV, Machine Learning, Android

ML-based mobile application for early identification of skin disease from images, reaching about 85% prediction accuracy on test data. Also published as a research paper.

Customer Churn Prediction and Retention Strategy

Python, Pandas, NumPy, Scikit-learn, Power BI, Excel

Machine learning model predicting customer churn with over 80% accuracy, with data cleaning, feature engineering, EDA and Power BI churn dashboards.

Student Performance Dashboard

Power BI, SQL, Excel, DAX

Academic performance analytics with search by student name and roll number, plus automated reporting that improved tracking efficiency by 70%.

Investment Profit Dashboard

Python, Streamlit, Pandas

Interactive investment profit tracker turning transaction data into profit and return views.

SKILLS

Programming: Python
Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, EDA
Database: SQL, MySQL
Visualization: Power BI (DAX, Power Query), Excel
AI / ML: Machine Learning, scikit-learn, Generative AI, AI Model Training and Evaluation, Prompt Engineering
Tools: Jupyter Notebook, VS Code, Git, GitHub, Streamlit
Other: Data Validation, Automation, Quality Assurance

PUBLICATIONS

- Skin Disease Analysis: Dr.Advice — IJSRCSEIT, May 2025
- Forensic Face Sketch Construction and Recognition — Bulletin for Technology and History, Dec 2024
- Face Recognition Bot using IoT — IJCRT, Feb 2024
- Presented at an international conference on IoT Technologies and Smart Systems.

EDUCATION AND CERTIFICATES

B.E. Computer Science

2021 - 2025

Sree Sakthi Engineering College · Coimbatore, India

Data Analysis and Python training · QSpiders, Bangalore

Certificates: Power BI Dashboard Development and Data Visualization (LinkedIn Learning); Microsoft Copilot for Data Analysis; Generative AI and Prompt Engineering; Introduction to Prompt Engineering for Generative AI; Excel with Copilot; The Joy of Computing Using Python (NPTEL); Python (HackerRank).

Languages: English, Tamil.
